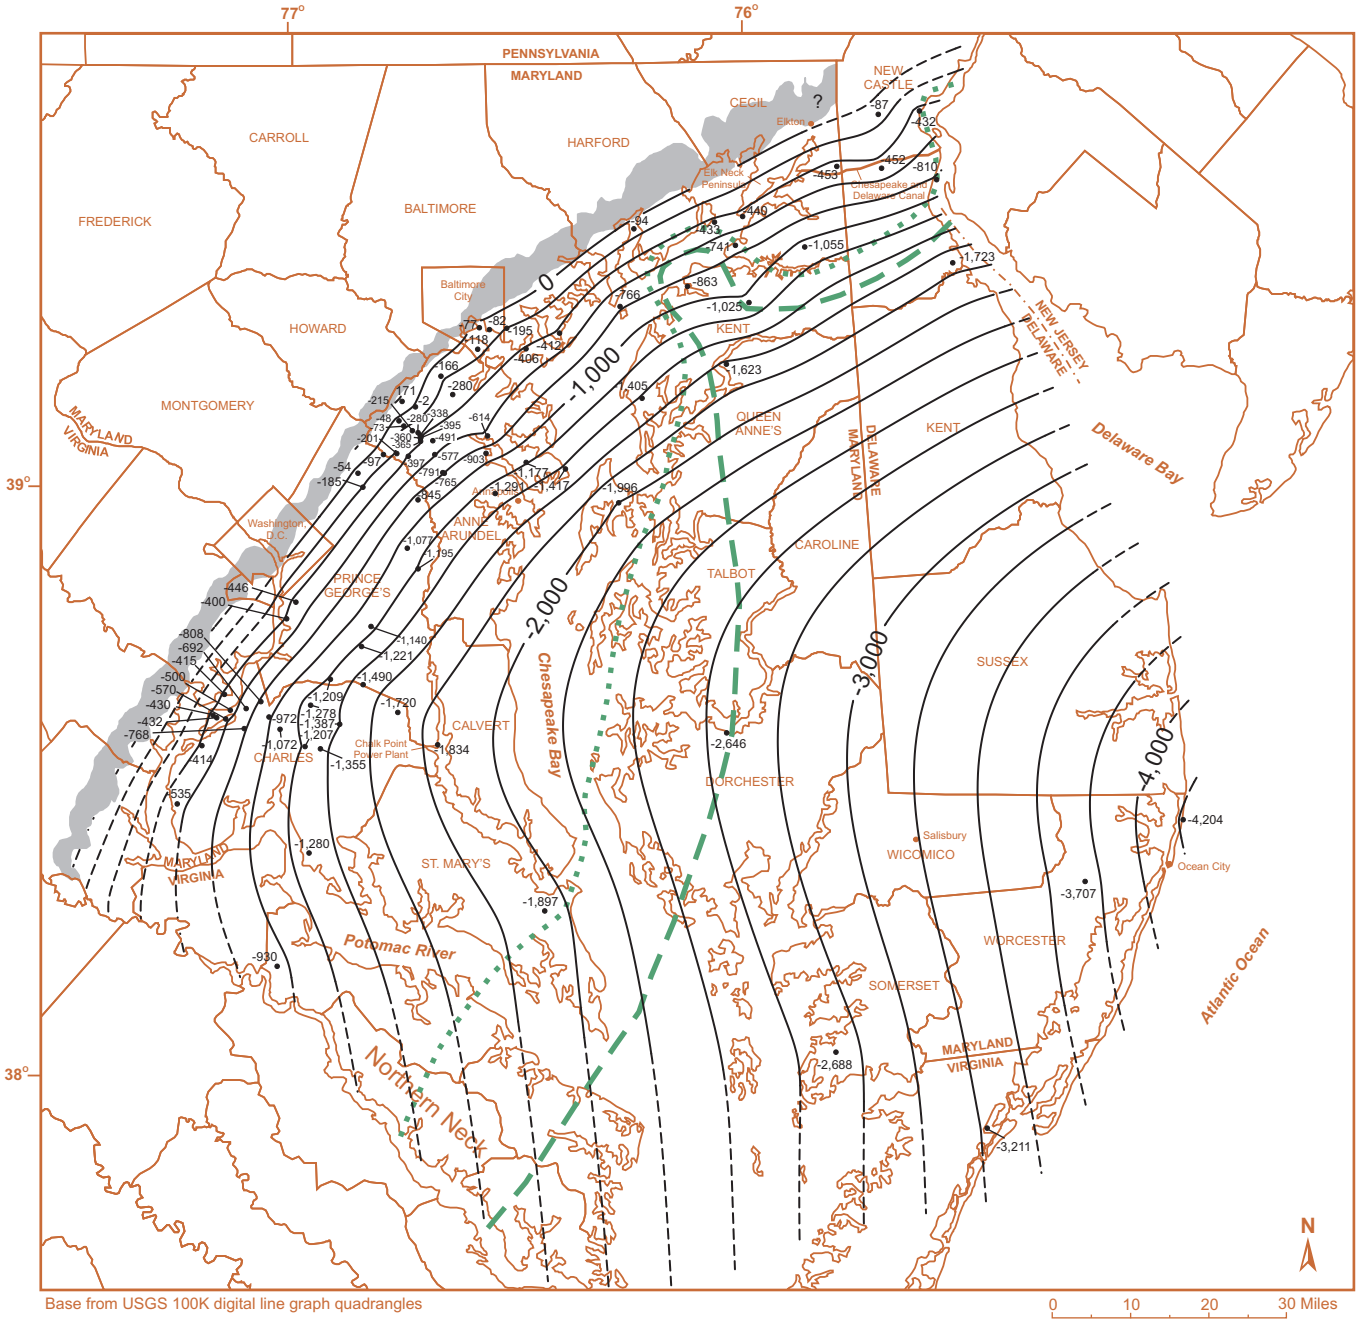
Altitude of the top of the Patuxent aquifer system.



EXPLANATION

-2,000 — Altitude of the top of the Patuxent aquifer system. Dashed where inferred. Contour interval is 200 feet. Datum is sea level.

-930 — Borehole--Number is altitude of the top of the Patuxent aquifer system, in feet related to sea level.

Approximate outcrop of the Patuxent aquifer system. Queried where uncertain.

Base of aquifer

Top of aquifer

1,000 milligram per liter isochlor line (Meisler, 1989)
